

## **BTY GROUP**

At BTY Group we're always looking for new people to join us who will bring fresh perspectives, new and different ideas, and innovative and potentially new ways of working. We expect these people to be experienced professionals in their existing environments.

We help our clients to address some of the complex construction issues facing businesses today. Our consultancy services add value through our people. We are looking for people who share a desire to work in this culture.

### **Project Managers**

We are looking for experienced Project Managers to join our team based in Vancouver, British Columbia. You will be responsible for the day-to-day running of projects through all phases; from feasibility, through detailed design, construction and commissioning. Your other duties will include client liaison and management of a multi-disciplinary team to achieve the client's scope, time, cost and quality objectives.

### **Qualifications**

With a minimum of 5 years experience you will possess an Engineering, Architectural or Construction Management degree and/or professional designation. You will have strong leadership, negotiation, communications and client relationship skills. Demonstrated experience in managing institutional projects in excess of \$15 million in capital value will be considered an asset.

### **Salary & Benefits**

Successful applicants will receive:

- Competitive salary, commensurate with experience
- Performance Bonus
- Car Allowance
- Extended Medical and Dental
- Disability Insurance
- Life Insurance

### **Applications**

Qualified candidates are invited to submit their resumes as follows:
